

STUDENT WORKBOOK

GETTING LOOPY USING PYTHON

STUDENT NAME

WORD BANK

WORDS TO REMEMBER!

WORD	DEFINITION
Loop	
Flowchart	
While Loop	
Condition	
For Loop	
User Input	

LESSON 1

A LOOPY INTRODUCTION

1 Write instructions for someone to walk in a square

You need to break down your instructions so that a robot could follow them

Highlight the commands that are repeated

Adapt the instructions above to include a loop

2

Write out your own definition of a *loop*

Examples of when you might use a loop

3

Breaking down flow charts

Match up the flow chart shape to the name

DECISION

START/STOP

INPUT/OUTPUT

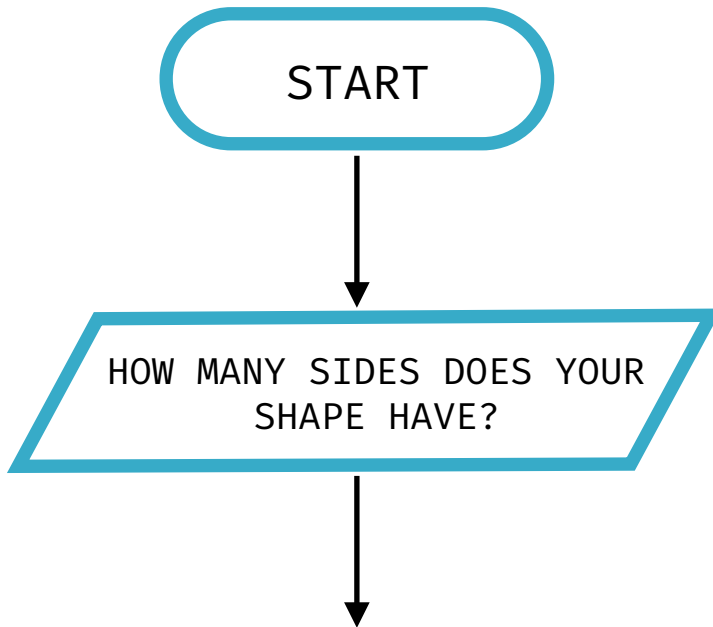

PROCESS

Describe what a flow chart is used for

4 Planning our program

Complete the flow chart below to plan out your shape guessing program

5 Complete today's reflection

One thing I enjoyed

What I found challenging

LESSON 2

REMOTELY OPERATED MARTY

1 Remotely Operated Vehicles or Robots

Why might we want to use a remotely operated vehicle or robot?

Reasons for using remotely operated vehicle/robots...

Environments remotely operated vehicles/robots might be used in...

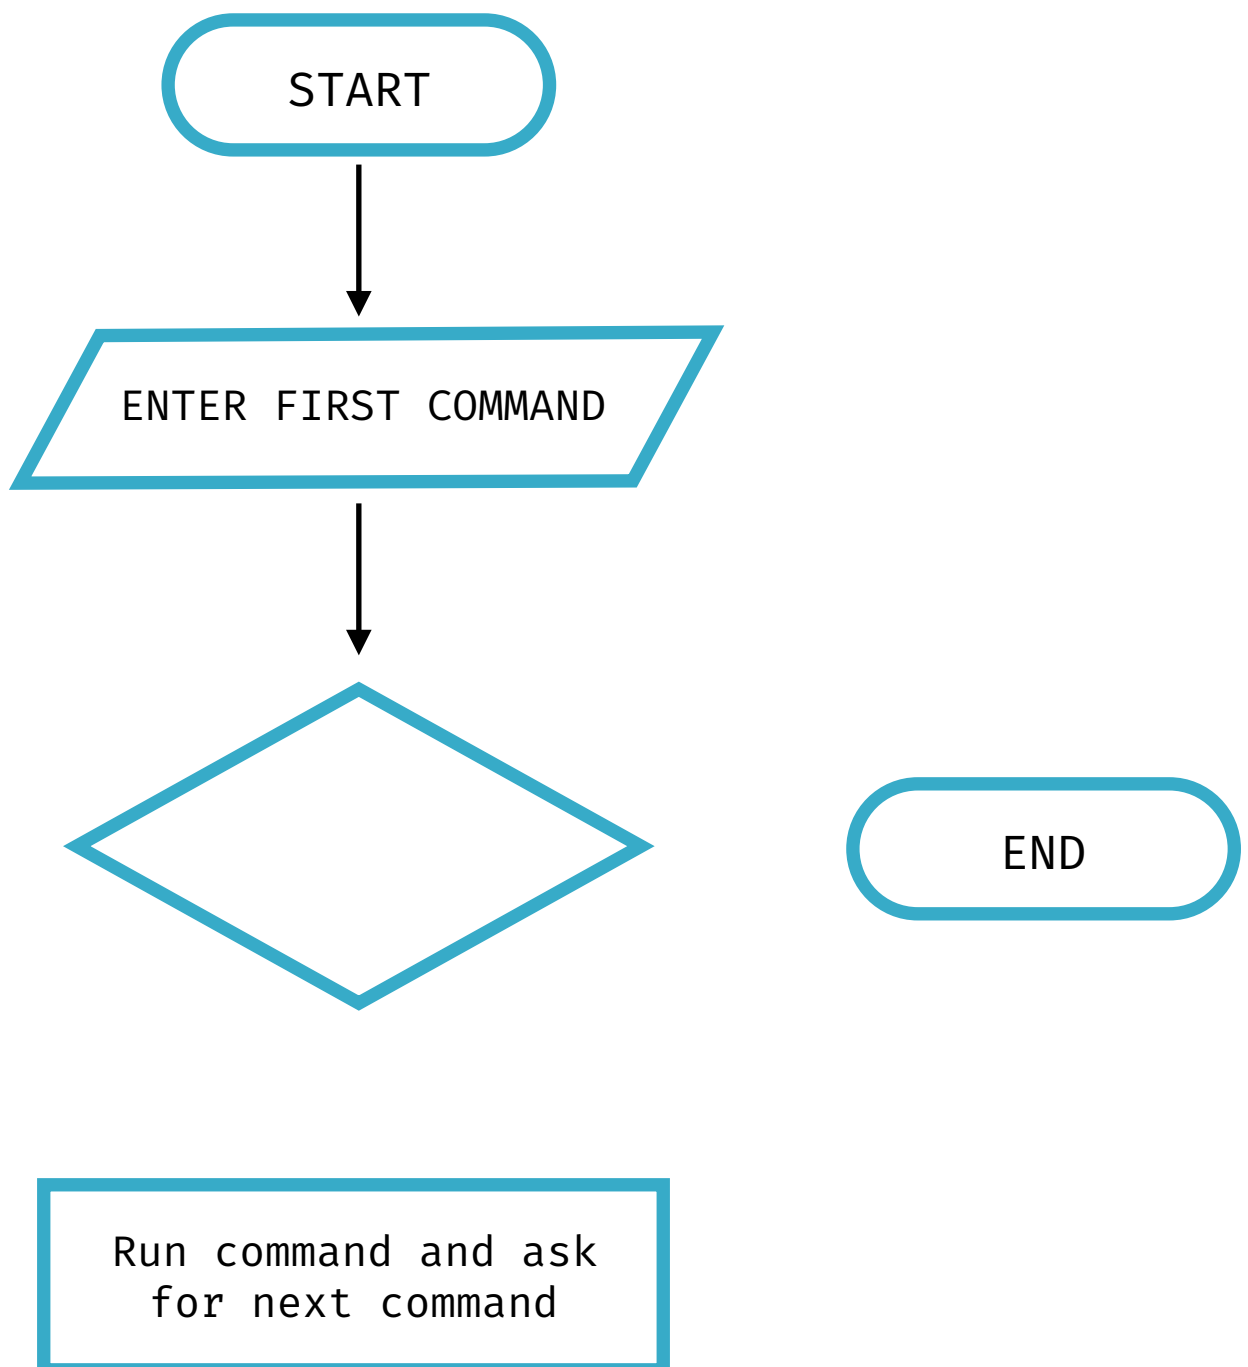

Definition of remotely operated vehicles/robots...

2

Text-based remote control flowchart

Complete the flow chart for designing a text-based remote control
Think about how a while loop works to do this

Mark on the flowchart where the while loop STARTS and ENDS

3 Complete today's reflection

One thing I learned

Something to ask next
time

One thing I want to research about remotely operated
vehicles/robots

LESSON 3

GUESS THE NUMBER

1 For vs While Loops

Based on the description, decide whether a for or while loop is needed

Repeatedly asking the user to enter the correct password

FOR / WHILE

Repeating arm movements to create a handshake motion

FOR / WHILE

Letting the user enter commands a specific number of times

FOR / WHILE

Asking the user for input until they enter **stop**

FOR / WHILE

2

Draw a flowchart to design your number guessing game

Remember to use the correct shapes based on the type of action

3

Complete today's reflection

One thing I didn't understand

One thing I like about my game so far

LESSON 4

GUESS THE NUMBER CONTINUED

1 Use this space to plan your game

Consider how you can improve your game or make it more difficult

PLANNING SPACE

IDEAS FOR EXTENDING MY GAME

2

Complete today's reflection

One thing I'm proud of in
my game

One challenge that I
tackled
